🚀 Hackathon Round-1 Presentation Guidelines

Dear Students,
Please follow the below structure strictly for your Round-1 presentation. This will help you score effectively and present your idea clearly.

📊 **Slide-wise Breakdown & Evaluation Metrics**

🔹 **Slide 1: Title Slide**

- **Team Name** (Project Name)
- **Problem Statement Number & Title** (e.g., Team Number / PS Number)
- **Team Members Names**

🔹 **Slide 2: The Problem (5 Marks)**

🎯 **Goal:** Explain the problem clearly and impactfully

✅ **What to include:**

- Do NOT copy-paste the problem statement
- Write **1–2 short, strong sentences** describing:
    - What is the problem?
    - Why does it matter?
- Use **keywords, icons, or visuals** instead of long text

🔹 **Slide 3: Our Solution (5 Marks)**

🎯 **Goal:** Present your idea and its value

✅ **What to include:**

- Project Name as title
- One-line explanation of your solution
- 3–4 key features (bullet points or icons)
- Optional: simple **architecture diagram / workflow**

🔹 **Slide 4: Tech Stack (5 Marks)**

🎯 **Goal:** Show your technical knowledge

✅ **What to include:**

- Title: *"How We Built It"*
- List technologies used:
  - Frontend
  - Tools / APIs
- Use **logos/icons** for better clarity

🔹 **Slide 5: Future Enhancements + Team Work (5 Marks)**

🎯 **Goal:** Show scalability and collaboration

✅ **What to include:**

- Future improvements (2–4 points)
- How your team contributed:
  - Roles of members
  - Collaboration approach

🔹 **Slide 6: Live Demo (25 Marks)** ⭐

🎯 **Goal:** Demonstrate your working project (MOST IMPORTANT)**

Slide Content:

- Title: **"Live Demo"**

🎤 **During Demo, you MUST:**

1. Explain a **real-world use case**
   Example: "Imagine I am a faculty member taking attendance..."
2. Highlight your **"WOW Factor"**
    - AI features / unique functionality

🏆 **Evaluation Summary**

- Problem Understanding – 5M
- Solution & Idea – 5M
- Tech Stack – 5M
- Future Scope – 5M
- **Team Work – 15M**
- **Live Demo – 15M**

⚡ **Important Tips**

- Keep slides **clean & visual**, avoid text-heavy content
- Practice your demo beforehand (no errors during presentation)
- Be confident and **explain clearly, not quickly**
- Ensure your project is **working smoothly**

💡 **Final Note**

Your **Live Demo decides your score** — focus more on execution than slides.

🔥 **ALL THE BEST — Build Smart, Present Better, Win Big!**
